DataMizar

Professional Data Services

RELIABLE DATA. STRUCTURED METHODOLOGY.

Every DataMizar project follows a transparent and repeatable methodology that combines advanced comparison techniques with human oversight where needed.

This ensures **accurate**, **traceable** and **business-ready results**.

COMPLETE TRACEABILITY

Every operation is documented and fully traceable.

PROFESSIONAL DOCUMENTATION

Clear reports and dashboards for better visibility and decisions.

SECURE DATA PROCESSING

Your data is protected throughout the entire project lifecycle.

RELIABLE RESULTS

Accurate, consistent and business-ready information.

OUR CORE SERVICES

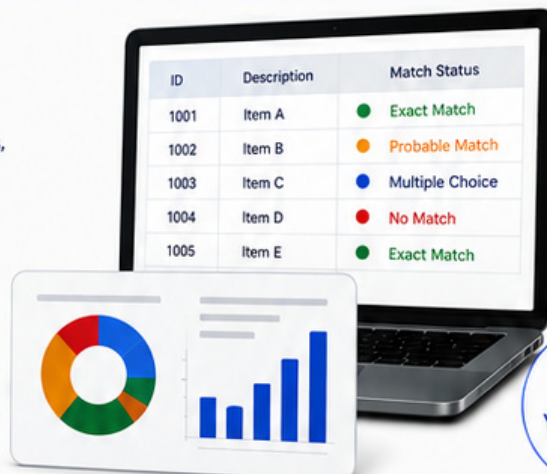

Three specialized services designed to help organizations **compare**, **analyze** and **transform** complex data into reliable, actionable information.

1. EXCEL COMPARISON & UPDATE SERVICES

Compare independent spreadsheets and databases, identify corresponding records, validate uncertain matches and prepare controlled updates.

- ✓ Automatic matching with advanced rules
- ✓ Probable matches and multiple choice handling
- ✓ Client review and validation
- ✓ Controlled update of approved records
- ✓ Complete reporting and audit trail

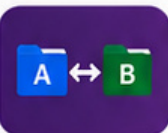

2. DIGITAL ARCHIVE ANALYSIS & INVENTORY SERVICES

Analyze digital repositories, extract valuable information, detect duplicates and deliver complete inventories with insightful dashboards.

- ✓ Complete inventory of files and folders
- ✓ Duplicate and anomaly detection
- ✓ Size, type, date and structure analysis
- ✓ Dashboards and statistics
- ✓ Excel reports ready for decisions

UP TO 500,000 FILES PER PROJECT

3. ARCHIVE COMPARISON SERVICES

Compare two independent archives, identify every difference, detect revisions and duplicate content and support migration and consolidation projects.

- ✓ Content comparison and checksum verification
- ✓ Differences, common files and unique files
- ✓ Duplicate and revision analysis
- ✓ Migration support (optional)
- ✓ Structured reports and dashboards

COMPARISON SUMMARY	
ONLY IN A	ONLY IN B
23,784	19,366
COMMON FILES	DUPLICATES
256,428	41,583
POSSIBLE REVISIONS	
1,127	

THREE SERVICES. ONE GOAL: TURN COMPLEX DATA INTO RELIABLE DECISIONS.

OUTPUTS & BENEFITS

DataMizar delivers **clear**, **reliable** and **actionable** outputs that help you understand your data and make confident decisions.

WHAT YOU RECEIVE

EXCEL REPORTS

Complete reports with detailed data, summary tables and statistics.

DASHBOARDS & STATISTICS

Interactive dashboards and KPIs for a clear overview and quick insights.

DUPLICATES & ANOMALIES REPORT

Identification of duplicates, anomalies and content variations with full traceability.

MIGRATION PLAN (OPTIONAL)

Mapping and operational notes to support archive reorganization or migration activities.

OPERATION LOG

Complete activity log for transparency, traceability and audit purposes.

STRUCTURED OUTPUTS

Data delivered in structured formats, ready to integrate and reuse.

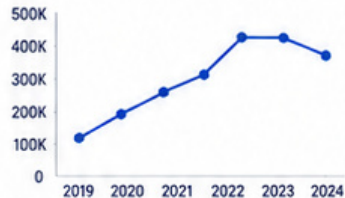

EXAMPLE DASHBOARDS

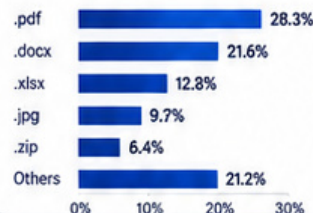

FILE TYPES DISTRIBUTION

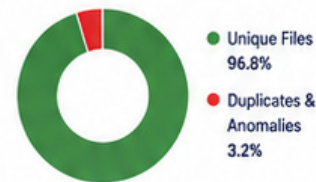

FILES OVER TIME

TOP FILE EXTENSIONS

DUPLICATES & ANOMALIES

BENEFITS TO YOU

BETTER VISIBILITY

Understand the real structure, content and quality of your data.

SAVE TIME

Automated analysis and clear outputs reduce manual effort.

REDUCE RISKS

Detect duplicates, anomalies and issues before they impact your processes.

SUPPORT DECISIONS

Reliable information to plan updates, migrations and reorganizations.

IMPROVE EFFICIENCY

Organized data and structured outputs drive operational excellence.

We transform complex data into reliable information so you can **act with confidence**.

ACCURATE RESULTS • COMPLETE TRACEABILITY • SECURE PROCESSING • CLIENT CONTROL

OUR APPROACH

A proven methodology and professional tools ensure **accurate** results, full **traceability** and complete **control** at every step.

1 UNDERSTAND

We understand your data, objectives and context to define the best solution.

2 EXECUTE

We apply advanced tools and tested processes to compare, analyze and organize your data.

3 VALIDATE

Results are automatically validated and reviewed with full traceability.

4 DELIVER

We deliver clear reports, structured outputs and actionable information ready for your decisions.

WHY DATAMIZAR

EXPERTISE

Deep experience in data comparison, analysis and information management across complex environments.

ACCURACY

Advanced algorithms and quality controls ensure precise and reliable results.

TRANSPARENCY

Complete visibility of processes, rules, results and every action performed.

DATA SECURITY

Your data is handled with the highest standards of security, confidentiality and integrity.

CLIENT CONTROL

You stay in control: review, approve and decide before any final update or delivery.

BUSINESS VALUE

Structured, reliable information helps you reduce risks, save time and make better decisions.

TRUSTED. TRANSPARENT. PROFESSIONAL.

PROFESSIONAL DOCUMENTATION

Clear reports, dashboards and logs for full understanding and audit.

FULL TRACEABILITY

Every result is traceable to the source, rules and parameters used.

SECURE DATA PROCESSING

Data is processed in secure environments with strict access control.

PROFESSIONAL SUPPORT

We are by your side to ensure smooth execution and successful outcomes.

LET'S TURN YOUR DATA INTO RELIABLE INFORMATION

Contact us to discover how our services can support your projects and help your organization make confident, data-driven decisions.
